SCYBEX®

Why Cybex?

For more than 45 years, we've created quality fitness equipment that's backed by science and intended for results-driven exercisers.

In the process, we've become a trusted partner to health clubs, YMCAs, JCCs, sports teams, colleges and universities, country clubs, military facilities, offices, and hospitality fitness centers committed to offering outstanding experiences for a wide range of exercisers.

The Science of Fitness

Cybex products are based on scientific truths developed during extensive explorations of human physiology and biomechanics. They are rooted in exercise science that studies the natural way to move and they allow any exerciser to feel connected to workouts that are efficient and effective.

Building Your Business

Cybex partners with you to build a successful fitness business. Our solutions include layout planning, equipment selection, financing and marketing support.

Make the Cybex Advantage Yours

Cybex has been creating and delivering high-performance, science-based fitness machines and helping club owners build successful businesses for more than 45 years. Now we'd like to help do the same for you.

To find out why we should be your trusted partner, visit cybexintl.com. Put the Cybex advantage to work for you.

TREADMILLS

Built for runners of all levels. Cybex treadmills utilize the IS4 Intelligent Suspension System, which features a soft landing area and is more rigid in the back at toe-off.

ARC TRAINERS

A popular alternative motion cardio unit that produces less stress on the knees than walking. The versatile cardio machine is ideal for any exerciser, ranging from beginners to those looking for high-intensity workouts.

BIKES

Ideal for members who are training for a triathlon or have never ridden a bike. Cybex indoor exercise bikes ensure a comfortable and effective ride.

CROSS-TRAINERS

A smooth and natural-feeling ellipse path leads to results for any exerciser. Moving handles and stationary bullhorns provide users with exercise variety.

SPARC TRAINERS

SPARC trainers are ideal for boosting the heart rates of exercisers during high-intensity and functional small group training workouts.

SELECTORIZED STRENGTH

Cybex has earned a reputation as a leader in circuit strength training. Our Eagle NX, and Prestige VRS selectorized strength lines combine superior technology with a passion for helping people get fit faster.

FUNCTIONAL TRAINERS

Cybex Bravo™ Functional Training System integrates free-form motion and higher loading to accelerate strength gains. Our FIBO-award-winning Progressive Stabilization technology is changing the way the fitness world approaches strength training.

GROUP TRAINING/ MULTI-STATION

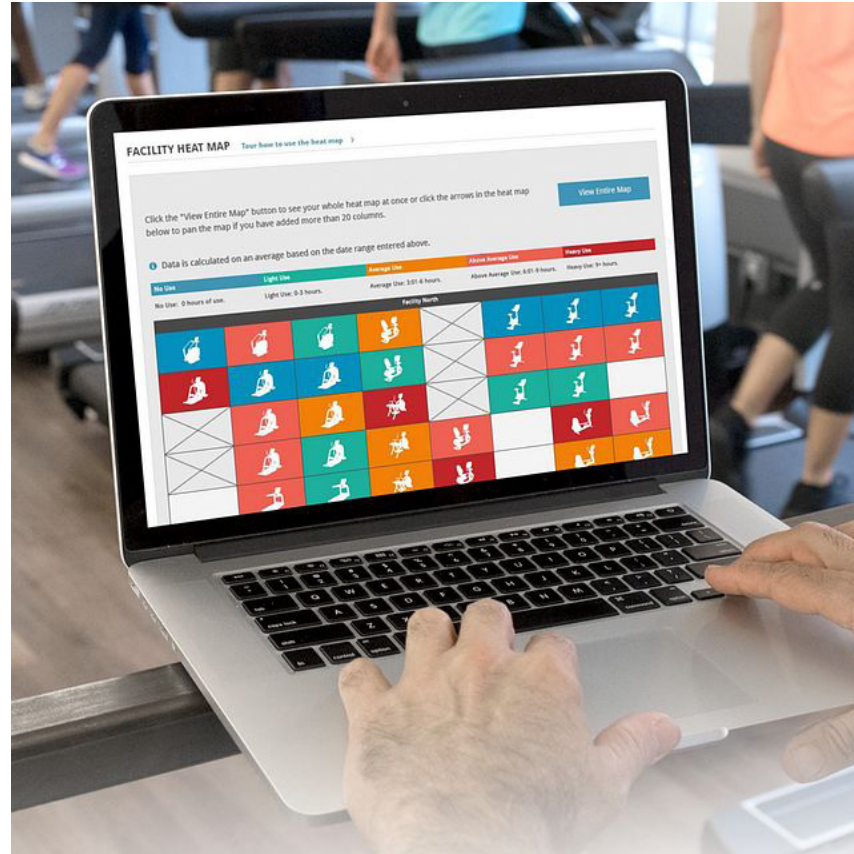

Cybex PWR Play and multi-station systems give exercisers the freedom to get a full-body workout at the same time. PWR PLAY is a flexible and configurable strength and functional training solution for individual, personal and group training.

PLATE-LOADED/ FREE WEIGHTS

From the excellent biomechanics of plate-loaded equipment, to the exerciser-defined paths of motion used in Olympic lifting, Cybex features strength training options for every level of exerciser.

TOTAL ACCESS

When Cybex says inclusive, we mean everybody. Our selectorized machines give those with cognitive, sensory, or physical challenges access to the same quality equipment as able-bodied users, making Cybex Total Access an excellent investment.

Halo Fitness Cloud

Managing your fitness facility is easier with this comprehensive digital tool. Halo offers insights into equipment use and exerciser behavior. It also allows for seamless software updates, facility-wide equipment settings, and service notifications.

GET CONNECTED

- Equipment usage insights streamline preventive maintenance and service plans
- Plan and set up preventive maintenance tasks and reminders
- Swap out low-use equipment for more popular cardio
- Rotate equipment to extend the life of your cardio and create even trade-in value

Halo Fitness Cloud offers one centralized location where you can easily manage business operations, communicate with members, plan your fitness programming, and more.

Extend the benefits of programming with the Halo Fitness App

Improve communication between trainers and exercisers

Benefit from detailed equipment use information

Create a community where members want to belong

Build member loyalty with a cohesive facility brand story

Streamline routine facility maintenance tasks

Visit Halo.Fitness

Cardio

Cardio options that allow any exerciser to achieve their goals.

CYBEX[®]

The Cybex Experience: Make it Personal

Everyone approaches their workout differently. Some prefer an immersive digital experience, others just want to get on and go. Cybex console options provide choices that appeal to every exerciser.

70T Console

50L Console

V Series Console

Entertainment options for 50L consoles and V Series consoles include a vivid 1080p attachable 15" HD TV and a secure tablet holder.

70T Console

The 70T Console is built on insights provided by facilities and exercisers about what makes the best experience. Sharp display, easy-to-use interface, quick data and tracking options, as well as Life Fitness On Demand content to keep exercisers fully immersed.

PERSONAL ENTERTAINMENT

Exerciser entertainment is enhanced with easy access to streaming video and audio services like Netflix®, Pandora® Radio and Spotify®, as well as integrated TV. Even at the gym, users can log in to the apps they use every day.

CONNECTED DEVICES

Easy and intuitive connection is a necessity in the digital age. Exercisers can easily connect an Apple Watch®, Samsung Galaxy Watch®, headphones, heart rate monitors and other Bluetooth® enabled devices.

LIFE FITNESS ON DEMAND

A library of engaging workouts on a wide range of connected cardio machines. Choose from a Basic Membership, a complimentary library of standard on-demand classes, or a Premium Membership that offers a growing library of premium on-demand classes and future customization enhancements.

BRING THE OUTDOORS INSIDE

The Cybex 70T Console offers beautiful interactive courses which allow exercisers to run or ride in a variety of landscapes around the world.

PERFORMANCE RUN

Performance Run view on treadmills makes it easy for exercisers to benefit from interval workouts. Speed and incline changes happen with just one touch on the screen.

CONNECT YOUR EQUIPMENT TO THE HALO FITNESS CLOUD

- View service notifications regarding preventive maintenance and equipment rotation
- Understand traffic patterns and popular equipment by analyzing usage insights
- Offer exciting new features on compatible cardio equipment with streamlined software updates, such as Life Fitness On Demand classes
- Allow exercisers access to features like Trip Planner, which informs them of real-time availability of cardio equipment they want to use prior to arriving at your facility
- Visit **Halo.Fitness** to get started today

CONSOLE FEATURES

Touch Screen	Surface Capacitive LCD Treadmill, Bikes, and Arc Trainers: 16" (41 cm)
Connectivity	Internet (wireless or wired), proximity login via Bluetooth® and NFC
Entertainment	Video streaming apps, Lifescape interactive courses, TV, integration with popular fitness apps, Pluto TV (US ONLY)
Streaming Entertainment Apps	Netflix®, YouTube®, ESPN®, Pandora™, Spotify™, Internet
Discover SE3 Integrated TV Compatibility	Analog and Digital: NTSC/ATSC/QAMb, PAL/SECAM/DVB-T/DVB-T2/DVB-C, NTSC/ISDB-T with BCAS, IPTV2, Pro:Idiom
Myzone Compatible	Yes

TECHNOLOGY FEATURES

Mobile Device Charging	Standard
Bluetooth Device Compatibility	Standard
NFC Device Compatibility	Standard
On Demand Content	Yes
22 Languages	English, English UK, Spanish, Portuguese, Italian, French, German, Dutch, Turkish, Simplified Chinese, Japanese, Korean, Russian, Arabic, Polish, Catalan, Finnish, Hungarian, Basque, Traditional Chinese, Welsh, Hebrew
Number of Workouts	12-25 Goal Based: Time, Distance, Climb, Interval, Aerobics, Watts, METs, Starter Interval, Reverse, 2 Speed Interval, 3 Speed Interval (4 terrains per). Heart Rate Based: Moderate, Vigorous, Fixed Time, Variable Time. Fitness Tests: LF Fitness Test, U.S. Navy PRT, U.S. Army, U.S. Marines, U.S. Air Force, WFI Submax Protocol, Physical Efficiency Battery, FAMS, CPAT
User Profiles	Limitless
Home Screen Customization	Standard

Treadmills

Treadmills are staples of every health club and fitness center, but that doesn't mean they're all created equal.

Cybex treadmills are a direct result of extensive research into the biomechanics of running. They incorporate a wealth of technologies designed to deliver a superior, natural experience to exercisers at every level.

R Series

Run faster. Run longer. Run better.

Rooted in the Cybex history of effective cardio equipment, but with a sleek, modern look that earned a 2018 Good Design Award from the Chicago Athenaeum Museum of Architecture and Design and Metropolitan Arts Press Ltd.

The IS4 Intelligent Suspension System caters to runners and the Interval Training Zone allows for quick and easy speed changes for runners during interval workouts. Both combine to make the R Series treadmill ideal for the serious runner.

IS4 INTELLIGENT SUSPENSION SYSTEM

The IS4 Intelligent Suspension System complements the mechanics of running and helps runners get results. It has a “soft” landing zone near the front of the treadmill, a firm middle area, and a rigid area at toe-off.

Connected 70T consoles wirelessly pair with Apple Watch®.

R SERIES CONSOLE OPTIONS

70T Console

50L Console

V Series

Provides exactly the cardio experience that moderate-use commercial facilities need without the added features that they don't. A simplified design combines with a modern aesthetic to appeal to a wide range of exercisers.

Availability varies by country. Please contact your representative for more information.

V Series Console

Entertainment Options

A vivid attachable HD 1080p TV 15" screen features an anti-glare coating and provides premium entertainment for exercisers.

A secure tablet holder allows a facility to mount their own tablets, which lock in place, or lets exercisers bring their own and secure them during workouts.

Arc Trainers

A popular alternative motion cardio unit that offers extreme efficiency and effectiveness backed by exercise science.

It's really three machines in one. At lower incline levels, it glides like a cross-country skier. In the middle, it strides like an elliptical. At higher levels, it's a climber.

The Arc Trainer produces less stress on the knees than walking, and is ideal for general exercisers, those looking for a challenging HIIT workout, and everyone in between.

R Series

Two options of R Series Arc Trainers suit a wide range of exercisers.

The total-body model has curved, multigrip handles on moving arms for a versatile workout for any exerciser.

The lower-body model has stationary bullhorns and caters to exercisers who focus on increasing strength and power.

Both are ideal for general exercisers, those looking for a challenging HIIT workout, and everything in between.

Curved multigrip handles on moving arms

Total-Body Arc Trainer

21 incline levels let exercisers target different muscle groups

24" stride length

Stationary handles

Lower-Body Arc Trainer

Two Console Options

70T Console

50L Console

KNEE STRESS

The motion of the Arc Trainer enables an exercise experience that has less knee stress than walking. As a result, the Arc Trainer appeals to a wide range of audiences. Exercisers can work out at a high level without causing strain to the knees.

VERSATILITY

Because of the low knee stress for exercisers the Arc Trainer can be a rehab tool. The low start-up resistance and low impact make it ideal for deconditioned exercisers or those new to exercise. Put it on a high incline to simulate climbing stairs with less strain on the knees. Finally, the high watt capacity means it also can be used by athletes for a more rigorous workout.

525AT

The 525 Arc Trainer is ideally suited to workout spaces like hotels, corporate wellness centers, and residential environments.

This proven cardio unit offers broad incline and resistance ranges that make it three machines in one. At lower incline levels, it glides like a cross-country skier. In the middle, it strides like an elliptical. At the higher levels, it's a climber or stepper.

Standard display

Intuitive console with tablet holder

Moving arms with straight handles

Available in Charcoal and Silver

Bikes

Once you learned to ride, you never looked back. Your bike helped you build muscle and endurance when you thought you were just having fun. Cybex brings ease of use and entertainment to indoor biking with cardio equipment that is both comfortable and effective.

R Series

A sleek, modern aesthetic combines with results-driven features to create effective exercise bikes. Choose between upright bikes and easily accessible recumbents. 25 resistance levels accommodate exercisers of all fitness levels.

Two Console Options

70T Console

50L Console

V Series

Intuitive exercise bikes that allow any exerciser to get on and go. V Series bikes are an ideal cardio option for moderate-use facilities like hotels, multi-unit housing and corporate fitness centers.

V Series Console

Availability varies by country. Please contact your representative for more information.

Cross-Trainer

Attention to biomechanics creates an elliptical path that feels smooth and natural. The streamlined design and intuitive console interaction allow users to easily get started with their workouts.

V Series

An intuitive total-body, low-impact workout that appeals to a wide range of exercisers. Stationary and moving handles offer added user versatility.

V Series Console

Availability varies by country. Please contact your representative for more information.

25 resistance levels

Oversized nonslip pedals

18" stride length

*Shown with optional tablet holder

Secure Tablet Holder

Attention to biomechanics creates an elliptical path that feels smooth and natural. The streamlined design and intuitive console interaction allow users to easily get started with their workouts.

SPARC

Lose fat. Build muscle. SPARC does it all because it's biomechanically refined to provide exceptional results with low stress.

The intuitive SPARC has very few adjustments which allows exercisers to get on and go. This is ideal in small group training sessions where time is limited and quick cardio bursts are essential.

Two modes of operation include circuit mode for single, high-power movements that typically last less than one minute, and interval mode for longer duration workouts with user-defined high intensity and rest periods.

Three incline levels target different muscle groups

Multiple hand position options are ideal for varying levels of intensity

Low-impact arcuate motion reduces knee stress but allows for high-intensity workouts

Strength

More Power to You and Your Members

SelectORIZED Strength

At Cybex, we believe that strength comes from within. That's why every selectorized strength machine we create is based on a deep understanding of the human body and driven by a sincere desire to help users at every level get strong and stay fit.

You can pick and choose from complementary lines of selectorized strength equipment to meet the needs of your facility, members and budget.

Ion delivers reliable biomechanics to those facilities looking for attractive, essential-functionality strength equipment.

Our industry-changing Eagle NX and hard working Prestige VRS are designed to work together. They're aesthetically sophisticated and easy to use – with a common user interface and a consistent look and feel.

Ion Series Selectorized

**PRECISE MOVEMENTS.
PURPOSEFUL DESIGN.**

Made with expertly engineered resistance systems, Ion Series moves in a way that creates a smooth and natural feel for exercisers. An attractive, low-profile design offers intuitive functionality for users. The series of space-saving equipment features a striking and consistent design that upgrades the aesthetics of any fitness facility.

Chest Press

- Grips offer two hand positions (neutral, prone) to provide training variety
- Contoured back pad improves user stability during movement
- Adjustable seat pad accommodates varying user heights

Pulldown

- Angled thigh pads stabilize users without the need of an additional adjustment
- Adjustable seat pad accommodates users of varying size and length
- Longer handles better support wider and narrower hand positions

Biceps Curl

- Self-aligning handles accommodate a wide range of forearm lengths
- Wide arm pad to accommodate different user sizes and positions
- Counterbalance creates low start resistance

Leg Press

- Innovative path of motion promotes greater hip extension and muscle contraction
- Large foot platforms accommodate a variety of foot sizes and positions while the angle of the foot platform helps maintain neutral ankle alignment.
- Adjustable back pad accommodates various user sizes

Shoulder Press

- Neutral and overhand handle positions for user preference and physical limitations
- Seat position provides range-of-motion adjustment
- Counterbalance creates low start resistance
- Contoured back pad improves user stability during movement

Row

- Self-adjusting handles promote a proper wrist alignment throughout the range-of-motion
- Neutral and underhand hand positions target specific muscle groups
- Angled foot platforms stabilize user and engage core muscles

Triceps Extension

- Self-aligning handles accommodate a wide range of forearm lengths
- Counterbalance creates low start resistance
- Seat angled to promote proper positioning during movement
- Foot supports provide user with additional stability during exercise

Leg Extension

- Seat angled to position user for maximum quadriceps engagement during movement
- Adjustable back pad accommodates various user sizes
- Tibia pads adjust to accommodate varying tibia lengths

Leg Curl

- Prone position promotes a greater hamstring muscle contraction with less movement and allows hamstrings to move more freely through a range-of-motion
- Tibia pad adjusts to accommodate users of varying size and length
- Diverging hip and chest pad angles minimize lower back stress

Abdominal

- Conforming hand grips accommodate various size users while providing easy entry / exit of the machine
- Foot supports allow for increased stability during movement
- Lumbar pad encourages greater range of motion, creating additional abdominal stretch and improving abdominal contraction

Multi-Press

- Triple-functioning design allows for Chest Press, Incline Press and Shoulder Press movements in a natural body position
- A single-pin, gas-assisted mechanism allows for easy, lightweight seat and back pad position adjustments simultaneously for the different exercises
- Workarm adjusts in 7 positions for multiple pressing angles to accommodate users' size and preference
- Multiple grip locations accommodate for different user sizes

Pulldown / Row

- Accommodates two exercises that target the entire back and rear shoulder muscle groups
- Comes standard with lat pulldown bar and neutral grip row handle
- Foot pegs provide additional user stability during row
- Angled thigh pads stabilize users without the need of an additional adjustment

Biceps Curl / Triceps Extension

- Counterbalance provides a lower start resistance
- Self-aligning handles accommodate a wide range of forearm lengths
- Angled seat and arm pads enhance stability during exercise
- Foot support for added stability during triceps extension

Pec Fly / Rear Delt

- Articulating arms pivot to accommodate individual forearm lengths and varying paths of motion
- Workarms adjust in 5 (13°) pectoral fly positions to accommodate user's range of motion.
- Independent variable cams replicate the body's natural strength curve throughout the range of motion

Leg Curl / Extension

- Single-pin adjustment mechanism allows users to simultaneously adjust seat and back pad
- Roller pads adjust in 4 positions to accommodate varying tibia lengths
- Hand grips provide user with additional stability during movement

Hip Abduction / Adduction

- Advanced mechanical adjustment design allows for an easy transition between inner and outer thigh exercises
- Tower provides privacy during use
- All adjustments can be made when user is positioned on the seat
- Workarm adjusts in 8 positions a variety of user ranges of motion.

Seated Leg Curl / Extension

- Single-hand adjustments for the workarm position as well as the tibia and thigh pads, are easily accessible from a seated position
- Workarm adjusts in 3 leg extension and 3 seated leg curl positions each to accommodate user's range of motion
- Roller pad adjusts in 4 positions to accommodate varying tibia lengths
- Adjustable back pad accommodates various user heights.
- Seat angled at 20° to position user for maximum quadriceps and hamstring engagement during movement

Abdominal / Back Extension

- Unique, workarm design allows for easy entry / exit
- 8 workarm adjustments allow users a variety of start positions
- Two foot support positions better accommodate taller and shorter users
- Lumbar pad properly positions and supports users during exercise

Ion Series Benches and Racks

Ion Series benches and racks are intuitive and easy to use. Low profiles and small footprints allow you to increase storage capabilities and maximize space. Benches allow for free-weight training, bodyweight training and proper stretching. Racks offer workout versatility and provide ample storage options for easy exerciser access to dumbbells, barbell and medicine balls.

3-Tier Accessory Rack

- The Ion Series Three-Tier Accessory Rack uses flat angled trays to conveniently and securely store accessories like kettlebells, slam bags, wall balls and more.

3-Tier Short Saddle Dumbbell Rack

- The 3-Tier Short Saddle Dumbbell Rack conveniently and securely stores a set of 5 to 50-lb round dumbbell pairs in durable saddles.

Abdominal Bench

- Handles and wheels make this bench portable with a low profile, and the 17-degree pad angle effectively targets abdominals.

Barbell Rack

- The Barbell Rack holds up to five barbells (straight and EZ Curl) with an angled upright frame and a urethane guard for easy access and secure storage.

Flexibility Trainer

- Pivoting design provides a wide range of movement, which accommodates different body types and varying levels of flexibility. Includes instructional placard and wheels for correct usage and easy mobility.

Vertical Dumbbell Rack

- The Vertical Dumbbell Rack stores eight pairs of studio dumbbells with a low-profile, space-saving design.

3-Tier Hex Dumbbell Rack

- A sleek rack designed to conveniently hold one full set of 5 to 50-lb hex dumbbell pairs.

3-Tier Long Saddle Dumbbell Rack

- The 3-Tier Long Saddle Dumbbell Rack has a smartly designed frame that conveniently stores a full set of 5 to 75-lb round dumbbell pairs in durable saddles.

Adjustable Bench

- The Adjustable Bench adjusts six different ways—including flat, incline and vertical—to allow for a variety of free-weight workouts.

Dip/Leg Raise

- Stable positioning for dips and vertical knee raises, and a 10-degree decline and angled elbow pads ensure the exerciser is securely positioned.

Smith Rack

- The Smith Rack has a 7-degree angle to support natural movement, linear bearings for smooth motion, and eight weight horns for ample storage.

Vertical Medicine Ball Storage

- Vertical Medicine Ball Storage offers a small foot-print and easy access for five medicine balls up to 10.5 inches in diameter.

Eagle NX Series

RESTYLED. REFINED. REIMAGINED.

The 15-piece Eagle NX line is aesthetically sophisticated yet highly durable. It is built to withstand rigorous movement but is gentle on the joints, and designed for all fitness levels yet focused on individual results.

Strength training has evolved beyond the number of pounds bench-pressed and reps crunched. Today, it's about burning calories, building lean muscle, improving bone density and managing chronic conditions.

TECHNOLOGY SETS CYBEX APART

Cyber selectorized strength equipment is based on intensive biomechanical research and a rich heritage in sports medicine. Its unique patterns of motion and loading technology produce maximum load on targeted muscles and minimum stress on involved joints by mimicking what we do in the real world.

Prestige VRS Series

This versatile collection is engineered to perform in a wide range of fitness facilities – from highly supervised to demanding self-serve. The Prestige VRS Series combines a striking silhouette with rugged durability, and it's engineered to take all the punishment a commercial environment can deliver. This popular family of 21 machines provides ample evidence that you no longer need to choose between form and function. Prestige VRS delivers both.

Chest Press

- Dual Axis allows the user to train with confidence in machine-defined movements or progress to more advanced user-defined movements
- The converging path of motion allows the user to train through a more complete range of movement and achieve better results
- Independent arms provide balanced strength development and add training variety
- Gas-assisted seat and back pad can easily be adjusted from the seated position allowing different body types to enjoy a comfortable range of motion

Pulldown

- Dual Axis allows the user to perform traditional pulldowns, narrow grip pulldowns and more advanced user-defined movements
- Independent arms provide balanced strength development and add training variety
- High stabilization pad is designed to accommodate different body types and strength levels

Arm Curl

- Articulating arm eliminates the need for adjustment while allowing users to move in a pattern best suited to their body type or motion preference
- Swiveling-rotating grips allow for exercise variety from dumbbell curl to hammer curl

Leg Press

- Articulating carriage moves backward and tilts for greater range of motion at the hip and more complete training of the glutes and hamstrings
- Seat back angle adjusts to five positions emphasizing comfort and greater hip range of motion
- Designed to replicate a safe, controlled squat

Overhead Press

- Dual Axis allows the user to train with confidence in machine-defined movements or progress to more advanced user-defined movements
- Scapular plane grip accommodates those with compromised shoulders
- Independent arms provide balanced strength development and add training variety
- Gas-assisted seat is easily adjusted from the seated position allowing different body types to enjoy a comfortable range of motion

Row

- Unique top pivot, four-bar linkage, and diverging path of motion combine to support natural movement
- Foot brace promotes torso stabilization consistent with proper lifting technique
- Adjustable chest pad and gas-assisted seat allow different body types to enjoy a comfortable range of motion

Arm Extension

- Unique design requires no setup
- Arm pads encourage stabilization and proper positioning

Hip Abduction/Adduction

- Dual function space-saving design
- Adjustable back angle position allows the user to target muscle groups
- Dual foot positions accommodate a wide range of body types
- Weight stack serves as privacy shield

Leg Extension

- Range Limiting Device allows the user to set the most comfortable starting position and ensures the resistance profile is always matched to the user
- Innovative floating tibia pad design provides virtually effortless positioning and greater comfort and stability
- Back pad is one-hand adjustable and angled 100° from the seat to relieve hamstring tension

Calf

- Descending path of motion allows the foot to move in a natural manner
- Seated exercise position directs force through the hip rather than shoulder and minimizes spinal compression
- Curved footplate trains the mid-foot to accept load for a greater training effect

Abdominal

- Innovative design isolates abdominal muscles and allows different body types to enjoy a comfortable range of motion
- Counterbalance mechanism offsets the user's trunk weight for more consistent loading and greater effectiveness
- Patented pelvic stabilization eliminates hip flexor involvement while rear foot pegs provide expanded training variation

Torso Rotation

- Dual angled foot pegs and thigh pads stabilize hips and legs, ensure proper torso movement, and maintain spinal alignment
- 17 starting positions are provided every 10 degrees in each direction for user comfort and exercise goals
- Top pivot design with a fixed lower body allows the head to lead and trains the torso muscles used in daily activities

Seated Leg Curl

- Range Limiting Device allows the user to set the most comfortable starting position and ensures the resistance profile is always matched to the user
- Back pad is one-hand adjustable and angled 100° from the seat to relieve hamstring tension

Glute

- Adjustable foot bar allows the user to choose amount of knee extension desired for movement and optimal fit for all sizes
- Adjustable abdominal support pad ensures correct posture and minimizes stress on the back
- Curvilinear movement encourages full gluteal training without requiring the user to align the hip joint

Back Extension

- Dual position lumbar pad allows the user to train the hip extension, lumbar extension, or both at the same time
- Curved lumbar pad encourages optimal range of motion while minimizing the possibility of excessive extension
- Counterbalance mechanism offsets the user's trunk weight for more consistent loading and greater effectiveness
- Designed to promote proper and controlled movement into extension

Chest Press

- Converging path of motion allows a more complete range of movement for unparalleled training results
- Independent arms offer balanced strength development and bilateral reciprocal training
- Gas spring-assisted seat and spring-assisted back pad make it easy for users to get a natural and comfortable workout
- Extra-sized grips reduce pressure on the hands for greater comfort when pressing

Pulldown

- Diverging path of motion invites a more complete range of movement for optimal training results
- Independent arms offer balanced strength development and bilateral reciprocal training
- Barbell and neutral grips provide multiple grip options
- Adjustable thigh pad optimizes experience for different body types and strength levels

Arm Curl

- Grips adjust automatically to accommodate all forearm lengths
- Gas spring-assisted seat makes it easy for users to get a natural and comfortable workout

Triceps Press

- Forward tilted back pad provides stability without the use of a seat belt
- Extra-sized grips reduce pressure on the hands for greater comfort
- Dual grip positions accommodate various body sizes and movements
- Gas-spring-assisted seat makes it easy for users to get a natural and comfortable workout

Overhead Press

- Converging path of motion allows a more complete range of movement for unparalleled training results
- Independent arms offer balanced strength development and bilateral reciprocal training
- Gas spring-assisted seat makes it easy for users to get a natural and comfortable workout
- Standard and neutral grips provide multiple grip choices
- Extra-sized grips reduce pressure on the hands for greater comfort when pressing

Row

- Diverging path of motion invites a more complete range of movement for optimal training results
- Independent arms offer balanced strength development and bilateral reciprocal training
- Variable resistance closely matches user's capability throughout the range of motion
- Bottom pivot design creates a low profile look
- Adjustable chest pad and footbar provide additional stability
- Gas spring-assisted seat makes it easy for users to get a natural and comfortable workout

Arm Extension

- Grips adjust automatically to accommodate all forearm lengths
- Adjustable, angled back pad stabilizes torso
- Gas spring-assisted seat makes it easy for users to get a natural and comfortable workout

Lateral Raise

- Horizontal axis provides optimal alignment with medial deltoid
- Design encourages users to stabilize core while also allowing targeted positioning
- Angled inputs minimize external rotation during movement for better focus on deltoids
- Gas-spring-assisted seat makes it easy for users to get a natural and comfortable workout

Fly/Rear Delt

- Floating inputs adjust for varied arm lengths
- Grips are optimized for hand placement variety without needing to adjust the seat
- Gas spring-assisted seat makes it easy for users to get a natural and comfortable workout

Seated Leg Curl

- Optional Range Limiting Device lets users choose a comfortable starting position, while ensuring the resistance profile is always optimal (available in Start and non-RLD configurations)
- Spring-assisted back pad makes it easy for users to get a natural and comfortable workout
- Angled back pad relieves hamstring tension
- Intuitive leg pad adjustment provides for minimal impact on the starting angle of the knee
- High stabilization pad significantly reduces knee stress as compared to other methods
- Easy adjustments from seated position

Hip Abduction

- Knee pads minimize knee stress
- Weight stack serves as privacy shield
- Dual footbars accommodate a wide range of user heights
- Users can easily adjust start position while seated

Leg Press

- Unique four-bar linkage design provides greater hip range of movement and increases hip extensor involvement
- Fully enclosed counterbalance system provides consistent resistance at even the lowest weight selections
- Seat back has five angled positions to increase comfort and range of motion
- Extensive range of start positions accommodates all sizes and shapes
- Large footplate allows for a wide range of foot placements for varied training

Dip/Chin Assist

- Provides up to 112 lbs. of assistance when engaged
- Extra-sized, dual-position grips increase hand comfort, accommodate different user sizes and allow for dip movement variety
- Pull-up bar offers both bar and neutral grips for individual preference
- Steps allow easy on and off
- Footbar easily flips up for unassisted pull-ups and dips

Prone Leg Curl

- Optional Range Limiting Device lets users choose a comfortable starting position, while ensuring the resistance profile is always optimal (available in Start and non-RLD configurations)
- Forearm pads and hip pad angle encourages proper spine alignment and minimizes back stress
- Intuitive and virtually effortless leg pad positioning

Hip Adduction

- Knee pads minimize knee stress
- Weight stack serves as privacy shield
- Dual footbars accommodate a wide range of heights
- Users can easily adjust start position while seated

Leg Extension

- Optional Range Limiting Device lets users choose a comfortable starting position, while ensuring the resistance profile is always optimal (available in Start and non-RLD configurations)
- Spring-assisted back pad makes it easy for users to get a natural and comfortable workout
- Intuitive and virtually effortless leg pad adjustment
- Offset input arm provides optimal positioning without affecting the starting angle of the knee
- Angled back pad relieves hamstring tension
- Easy adjustments from seated position

Standing Calf

- Shoulder pads are angled to match natural angle of shoulder
- Curved footplate allows a comfortable stretch to the start position
- Input arm adjusts for varying user heights

Abdominal

- Patented pelvic stabilization system with adjustable foot brace allows users of varying heights to “lock into” the hip pad for optimal training effect
- Isolates abdominal muscles for a more complete range of correct spinal flexion movement
- Innovative design allows different users to perform correct movement without adjustment
- Hip pad includes a curved lumbar section to promote full range of movement

Glute

- Curvilinear path of motion encourages gluteal training without relying on hip alignment
- Adjustable abdominal support and positioning the knee under the hip encourages proper spine alignment and minimizes back stress

Back Extension

- Optional Range Limiting Device lets users choose a comfortable starting position, while ensuring the resistance profile is always optimal (on Start and Total RLD versions)
- Available in two configurations: Start RLD and non-RLD
- Patented pelvic stabilization system with adjustable foot brace allows users to “lock into” the hip pad for optimal training effect
- Contoured lumbar pad encourages correct and comfortable movement into extension

Torso Rotation

- Bottom pivot design maintains a fixed upper body, stabilizing users' heads and is useful for training when the legs are driving.
- Six starting positions ensure maximal comfort
- Hip flexed position optimizes stabilization and spinal alignment
- Foot platforms further stabilize all different body types
- Gas spring-assisted seat makes it easy for users to get a natural and comfortable workout

Functional Trainers

Functional training equipment provides effective and efficient strength training, and prepares exercisers of all abilities to the real-world tasks they face every day.

The Cybex Bravo Functional Training System combines the best of selectorized and cable-based strength training to deliver a safe, simple way to get results faster. The numbers tell the story. Bravo delivers a 221% increase in load capacity. A 184% improvement in core activation. And a 38% strength gain over freestanding cable systems. No other functional training or selectorized systems can touch Bravo's scientifically documented results.

With Cybex Bravo, your users have the power to increase core strength and workload at the same time. The state-of-the-art, patented Progressive Stabilization technology – winner of a prestigious FIBO Award 2012 – allows them to gradually modify the amount of stabilization provided. Its cable adjustment system is the only one that lets users change both height and width, resulting in unlimited exercise possibilities.

Bravo Advanced

This product changed the game in functional training by offering hundreds of exercises in a single machine. Users no longer have to make a choice between workloads high enough to build strength and free form patterns of movement that mimic real-world applications.

Bravo Basic

Cybex Bravo Basic (FT-325) is a high performance, commercial-grade functional trainer that delivers an expansive range of exercises in a single, compact unit. It's ideal for facilities where space is limited, but results are a must.

PWR PLAY

PWR PLAY is the solution that adds value while improving a facility's footprint. It delivers an incredibly flexible system that can be tailored specifically to any facility's needs. It is completely scalable and bridges user types.

With 27 possible add-on options, including optional storage solutions, PWR PLAY enables facilities to create versatile, customized solutions for multiple environments and exercisers.

CONFIGURABILITY

Modular stations allow the creation of tailored solutions to fit your facility's programming needs.

IN DEMAND

Functional and bodyweight add-on stations provide training solutions for today's top multi-faceted exercises along with timeless staples.

VARIETY

Choose from endless configurations that allow PWR PLAY to become a turnkey component to your personal, group and cable-based programs.

SPACE EFFICIENT

Along with optimized footprint from custom configurations, additional storage components keep your facility floor open for training.

CORE

- Designed to accept single stations on each of its four sides

LAT PULL

- Adjustable thigh pad provides stabilization for a wide variety of users

Accessories Included:
1 lat bar

LOW ROW

- Pulley position allows for an optimal path of motion of the handle for rows

Accessories Included:
1 row handle

TRICEPS PUSHDOWN

- Overhead pulley location allows for better body positioning

Accessories Included:
1 rope handle

HIGH LOW STATION

- Pulley handles rotate to allow for improved ROM and workout variety

Accessories Included:
1 long handle
1 ankle strap

ADJUSTABLE CABLE COLUMN

- Carriage adjusts from 7 - 76" above the floor
- Carriage swivels 165 degrees

ATTACHED HIGH LOW CROSSOVER

- Four chin-up handles
- Carriage adjusts from 7 - 76" above the floor
- Carriage swivels 165 degrees

EMBEDDED HIGH LOW CROSSOVER

Accessories Included:
2 short handles
1 ankle strap

ATTACHED CABLE CROSSOVER

- Four chin-up handles
- Carriage adjusts from 7-76" above the floor
- Carriage swivels 165 degrees

EMBEDDED CABLE CROSSOVER

- Accessories Included:**
- 2 short handles
 - 1 ankle strap

FREE STANDING CABLE CROSSOVER

DUAL HANDLE LOW ROW

- Independent dual handles deliver a 2:1 lifting ratio
- Pulley position allows for an optimal path of motion

- Accessories Included:**
- 2 short handles
 - 1 row handle

BOXING w/ SUSPENSION

- Bodyweight suspension attachment
- Battle rope attachment
- Glove and bag storage area

- Accessories Recommended:**
- Punching bag
 - Boxing gloves
 - Suspension trainer
 - Jump rope
 - Battle rope

STALL BARS w/ SUSPENSION

- 8" rung spacing
- Offset pull-up bar for bodyweight suspension, pull-ups, leg raises, etc.

- Accessories Recommended:**
- Suspension trainer

POWER PIVOT

- Weight plate storage
- Bar storage

- Accessories Included:**
- Power Pivot Bar (weighs 22lbs)

- Accessories Recommended:**
- 1 – 5 lbs. Urethane plate
 - 2 – 10 lbs. Urethane plate

ROPE PULL - POWER PIVOT

- Weight plate storage
- Bar storage
- Mid direct pulley
- Low direct pulley

- 1 – 25 lbs. Urethane plate
- 1 – 45 lbs. Urethane plate

DUAL PULLEY HIGH

- Pulley handles rotate 360 degrees for unlimited ROM
- Handles have three adjustable positions for a wide variety of users.
- Stabilization pad allows exercisers to perform partially stabilized or unstabilized movements
- 4:1 design for dynamic exercises

- Accessories Included:**
- 2 adjustable handles

DUAL PULLEY LOW

ADJUSTABLE PULLEY 4:1

- Carriage adjusts from 7 – 76" above the floor
- Carriage swivels 165 degrees
- 4:1 design for dynamic exercises

- Accessories Included:**
- 1 long handle
 - 1 short handle
 - 1 ankle strap

DUAL HANDLE LAT PULL

- Adjustable thigh pad provides stabilization for a wide variety of users

- Accessories Included:**
- 2 short handles
 - 1 ankle strap

DIP/CHIN ASSIST

- Three chin-up hand positions

ROPE PULL

- Mid direct pulley
- Low direct pulley

- Accessories Included:**
- Infinity rope

DIP

- 1.5" rubber handle diameter to decrease pressure on the user's hand
- Shown with the Storage Station (PP-SC)

STEP

- Shown with the Storage Station (PP-SC)
- Rubber anti-slip platform surface

CROSSOVER BOOM CONNECTOR

- Connects to the PP-AP41
- Bodyweight suspension attachment
- Pull-up handles provide grip options

HANDLE ACCESSORY RACK

- Mainly for use with pulley or crossover stations
- Six J-hooks for accessory storage
- Two short sport bar handle storage locations

STORAGE CONNECTOR

- Kettlebell/medicine ball storage area

STORAGE STATION

- Elastic band storage area
- Kettlebell/medicine ball storage area
- Five U-Links for attaching and adjusting a step-up platform, dip handle and elastic bands.

Step-up platform Dip handles

Plate-Loaded Free Weights STRUCTURE™

This is where it all began. Long before weight machines, or counter-balanced arms, or the application of biomechanical science to the art of building strength.

Cybox never stops raising the bar on quality. The Cybox line of free weights, racks, benches and body weight stations looks as good as it performs.

With its clean lines and contemporary styling, it integrates seamlessly with your Cybox cardio and strength equipment.

Plate-Loaded

Our Plate-Loaded products are built to endure all the punishment your members can dish out. They employ many of the same principles used in the design of our selectorized machines to provide outstanding results and exceptional use of space.

Free Weights

The Cybex Free Weight series is a comprehensive collection of racks, benches, and weight stations created for the most demanding facilities and users. Each piece of equipment is designed to complement your Cybex selectorized and functional training equipment and manufactured to stand the test of time.

Hack Squat

- Fully enclosed linear bearing system
- Hip-height plate loading
- Large nonskid footplate
- Dual height start position
- Six plate storage positions

Squat Press

- Direct linkage system provides a variable resistance profile to ensure proper strength curve throughout the range of motion
- Four-bar linkage mechanism maintains the correct ankle position throughout the motion

Leg Press

- Three position adjustable backrest
- Linear bearings allow a smooth, quiet motion and are fully enclosed for safety
- Optional 10" (25 cm) Weight Post Kit available for added resistance

Overhead Press

- The 20° converging pattern provides an exceptional range of motion with consistent torque at the joint
- Independent arm motion for balanced strength development
- Barbell and neutral grips
- "Extra-sized" grips reduce pressure on the hands for greater comfort when pressing

Seated Calf

- Seat moves with input arm for maintenance of alignment
- Kneepads adjust for tibia length and range of motion

Chest Press

- The 25° converging pattern provides an exceptional range of motion with consistent torque at the joint
- Independent arm motion for balanced strength development
- Two-position selectable starting position for a broad range of user size and flexibility
- Overhead pivot provides a natural path of motion
- "Extra-sized" grips reduce pressure on the hands for greater comfort when pressing

Smith Press

- Open, walk-through design for easy roll through access for benches
- Fifteen-pound take-off weight allows users of all levels the ability to exercise
- 90° path of motion for adaptability to all exercises
- 18 bar and catch hooks in 4" (10 cm) increments

Olympic Bench Press

- Frame is contoured for easy spotter access
- Two-position plated bar catches protect frame from contact with bar

Olympic Bench Weight Storage Attachment

For Use With Olympic Bench, Olympic Incline Bench and Olympic Decline Bench

- Frame is contoured for easy spotter access
- Two-position plated bar catches protect frame from contact with bar
- Four weight storage pegs per side
- Bolt-on design for installation at any time

45° Back Extension

- Unique pivoting thigh pad provides relief for the knee joint, enhancing both comfort and safety
- The 45° angle provides close alignment of strength curve for the low back and hamstrings
- Adjustment range of 13.5" (34 cm) accommodates users of all sizes

Olympic Incline Press

- Frame is contoured for easy spotter access
- Six seat-height positions allow for fine-tuning of user position
- Two-position plated bar catches protect frame from contact with bar
- 30° Incline

Scott Curl

- Elbow pad is angled 55° to vary resistance and improve comfort
- Seat is angled 10° for comfort

Three-Tier Dumbbell Rack

- Offset angle prevents wrist strain while removing and replacing dumbbells
- Individual dumbbell cradles improves rack safety profile
- Dumbbell saddles made of wear resistant high-density polyethylene plastic
- Full shelf prevents dumbbells from falling through
- Storage space for 15 pairs of dumbbells

Twin-Tier Dumbbell Rack

- Offset angle prevents wrist strain while removing and replacing dumbbells
- Individual dumbbell cradles improves rack safety profile
- Dumbbell saddles made of wear resistant high-density polyethylene plastic
- Full shelf prevents dumbbells from falling through
- Storage space for 10-pairs of any size dumbbell

Weight Tree with Bar Storage

- Six zinc-coated plate storage pegs
- Polymer bumpers on storage pegs protect frame finish from plates
- Stores two olympic bars vertically for maximum space efficiency

Barbell Rack

- Holds 10 barbells
- Upright design provides more ergonomically correct racking of barbells

Leg Raise Chair

- Slightly reclined position and angled elbow rests provide secure position
- Step-up for easy entry/exit

Flat Bench

- Three-point contact provides excellent stability
- Strong but lightweight design can be easily moved

Adjustable -10° to 80° Bench

- Back pad has eight positions from -10° to 80°
- Seat pad provides three positions from 0° to 20°
- Features include wheels and a handle for easy moving that doubles as a footrest

Adjustable Decline Bench

- Back pad adjusts from 15° to 30° in eight settings
- Legs are supported and knees elevated to reduce lower back strain

STRUCTURE

STRUCTURE

The Olympic rack system from Cybex, allows for the custom creation of a modular training system. Versatile attachments and storage components will make this the cornerstone of your individual, personal, and small group training offerings, all from the same footprint.

- Durable 11-gauge steel frames with electrostatic powder-coated finish
- 3 racking positions spaced
- 4" (10 cm) apart
- Laser engraved position indicators
- Bar catches and adjustable bar stops with UHMW protection
- Standard swing-away spotter platforms with 10 positions spaced 2" (5 cm) apart

Power Rack

- Footprint (L x W x H):
77 x 65.5 x 97.5"
(196 x 166 x 248 cm)
- Live Area: (L x W x H):
125 x 120 x 102"
(318 x 305 x 259 cm)

Half Rack

- Footprint (L x W x H):
61.5 x 65.5 x 97.5"
(156 x 166 x 248 cm)
- Live Area: (L x W x H):
109.5 x 120 x 102"
(278 x 305 x 259 cm)

Half/Half Combo Rack

- Footprint (L x W x H):
101 x 65.5 x 97.5"
(257 x 166 x 248 cm)
- Live Area: (L x W x H):
197 x 120 x 102"
(500 x 305 x 259 cm)

Multi-Adjustable Bench

- Multiple pressing angles and 3 seat adjustments for maximum performance
- Back adjustments: -10°, 0°, 15°, 30°, 45°, 60°
- Seat adjustments: 0°, 15°, 30°

Monkey Bar X-Member

- Pull-up bar designed to offer a wide range of standard grips

Bumper Plate Storage

- Attaches to base to provide convenient storage of bumper plates

Power Pivot

- A rotating mount for a barbell that allows for a variety of push and pull exercises

Multi-Grip X-Member

- Increases variety with multiple pull-up bar configurations in one

Thick/Skinny X-Member

- Combines standard 1.25" and 2" pull-up bar options

Dip Handles

- Attaches between uprights to create a space to perform dips

Band Pegs

- Anchor and storage option for bands

Flexible Bar Catch

- Lessens noise and barbell bounce, while allowing the barbell to center when dropped

Free Standing Storage Racks

- Rugged accessory storage available in 4' and 6' options
- Choose two or three storage members
- Options include kettlebell tray, dumbbell tray, and 2 pipe

Wing

- Mounts to the front of uprights and is available in 42" and 72" options

Total Access

Everyone should have access to the best exercise experience possible – whether they have physical impairments, cognitive challenges, or because they’re getting older. That’s why we created fitness equipment specifically designed to address the exercise needs of people with disabilities, as well as the active aging population.

Cybox Total Access removes barriers. It brings cardio and strength training to a large population that has been underserved in the fitness equipment world, without compromising quality.

Our Total Access line exceeds Inclusive Fitness Initiative (IFI) standards, enabling both disabled and non-disabled individuals to take advantage of fitness training using the same machines and enjoying the same experience.

Total Access can help you attract a huge and diverse base of customers by offering people of all ages and abilities a way to improve their fitness.

Accessible weight stack for easy weight selection while seated

Seats swing out of the way for wheelchair access

8 ADA Compliant Products

Large, bright images to assist those with special needs

HANDLE POSITION CHOICE

Upper and lower handle positions meet the needs of shorter people and wheelchair users who cannot adjust seat height. It enables those with reduced balance to maintain full foot contact with the floor.

REVERSIBLE CHEST PAD

An eight-position reversible chest pad ensures that tall and short users can achieve a full range of movement.

LARGE SEAT BASE

A large seat offers more stability and confidence for older users as well as those with reduced trunk stability.

TOP MOUNTED INPUT ARM

A pivot position maintains the natural body movement of a gradually descending hand.

USER ACCESSIBLE WEIGHT STACK

Offers ease of weight selection from a seated exercise position.

TWIST SELECT WEIGHT STACK

Its integral, three-position Twist Select system offers 5 lb (2.5 kg) increments, making it ideal for inexperienced and older users. Features a low start weight.

Chest Press

- Locking plunger adjustment on swing away seat allows easy access for wheelchair users and one-handed seat adjustment for users with limited mobility
- Adjustable input arm enables a non-stressed start position for users with limited shoulder flexibility and wheelchair users
- Choice of upper and lower handle positions caters to wheelchair users, shorter users and those with reduced balance

Overhead Press

- Swing away seat with locking plunger adjustment allows easy access for wheelchair users and one-handed seat adjustment for users with limited mobility
- Choice of upper and lower handle positions caters to wheelchair users, shorter users and those with reduced balance
- Counterbalanced input arm with 5.5 lb (2.5 kg) start weight

Lat Pull

- Lever-operated single arm handle height adjustment allows the bar to be adjusted for shorter and wheelchair users down to 55" (140 cm) start height from a seated position
- Adjustable knee restraint and seat height allows shorter users and others with reduced trunk stability to maintain full flat foot contact with the floor. This permits correct pelvic positioning and avoids a round back during exercise

Row

- Choice of upper and lower handle positions caters to wheelchair users who cannot adjust seat height, shorter users and those with reduced balance, who can then maintain full foot contact with the floor
- Eight-position reversible chest pad ensures a full range of movement is achieved by both tall and short users
- Top mounted input arm pivot position maintains the natural body movement of a gradually descending hand position during the movement

Cable Column

- Multi function exerciser offering a very wide variety of exercises for all non-disabled and disabled users
- Two large stability handles provide wheelchair and other users with the ability to stabilize when performing unilateral (single arm) exercises
- Pistol grip height adjustment enables adjustment of start height with one hand, essential for amputees and stroke users

Leg Extension

- Sliding adjustment for tibia pad length. The tibia pads can be quickly and accurately positioned at the base of the shins without the need to screw or unscrew a lever
- Side handles parallel to seat side to assist with transfer
- Start ROM on cam synchronized with user. Regardless of the starting position, the Cybex patent pending ROM adjustment ensures the cam moves to maintain the correct strength profile for the user
- Optional step not included

Leg Press

- An innovative counterbalance system provides for exceptionally low minimum resistance with consistent feel
- Large foot plate for stability when exercising
- Large backrest and seat base offer more stability and confidence for older users as well as those with reduced balance

Seated Leg Curl

- Five-position adjustable calf pad accommodates different lower leg lengths
- Thigh pad hold-down mechanism allows the thighs to be secured above the knee for reduced shear force on the knee joint while keeping it in a stable position
- Start ROM on cam synchronized with user. Regardless of the starting position, the Cybex patent pending ROM adjustment ensures the cam moves to maintain the correct strength profile of the user
- Optional step not included
